Plaats,

Datum

Your Excellency,

Human rights lawyer Hoda Abdelmoniem has been arbitrarily detained since 2018 solely for her peaceful human rights work. Although she completed her unjust prison sentence in October 2023, she remains detained and now faces similar terrorism-related charges. If convicted, she could face life imprisonment or even the death penalty.

Her health has seriously deteriorated in prison, and she has multiple chronic medical conditions. Yet she is still required to attend court hearings in person, as the court has refused requests to allow her lawyer to represent her instead, as permitted under Egyptian law.

I call on you to immediately and unconditionally release Hoda Abdelmoniem, drop all charges against her, and ensure she receives the specialized medical care she urgently needs.

Yours sincerely,

Naam

The Netherlands
